

Table of Contents

1. Characterization of hot water spring source isolated clones of bacteria and their industrial applicability
Int J Chem Res 2.1 (2010):1-7
[Gopala Rao T.V., Sudip Kumar Sen, Sudhir Kumar Mohapatra, Soumya Satpathy](#)
15 Jun 2010 . Pages : 1-7 . Article Id : BIA0000132
2. Nystatin Induced Changes in Growth, Viability and Amino acid Influx of Yeast *Saccharomyces cerevisiae*
Int J Chem Res 2.1 (2010):8-17
[Gopala Rao T.V., Sudip Kumar Sen, Amruta Samal, Soumya Satpathy](#)
15 Jun 2010 . Pages : 8-17 . Article Id : BIA0000133
3. Synthesis of some new Acid hydrazones and their activity against *Mycobacterium*
Int J Chem Res 2.1 (2010):18-19
[Srivastava Ritu, Pandeya S.N., Singh A.K., Anantham Sam](#)
15 Jun 2010 . Pages : 18-19 . Article Id : BIA0000134
4. Bio-Molecular assay of cyanobacteria on response to diazinon an Organophosphorus insecticide.
Int J Chem Res 2.1 (2010):20-24
[Ghadai A.K., Kumar S., Acharya D.K.](#)
15 Jun 2010 . Pages : 20-24 . Article Id : BIA0000135
5. Synthesis and spectral characterization of some bromo-benzothiazolo pyrazolines
Int J Chem Res 2.1 (2010):25-27
[Bharat Kumar, Vishal Pathak, Sushma Rani, Ravi Kant, Tiwari I.C.](#)
15 Jun 2010 . Pages : 25-27 . Article Id : BIA0000136
6. Synthesis and antibacterial studies of some new amides of 5- sulphosalicylic acid
Int J Chem Res 2.1 (2010):28-31
[Anjali Mishra, Manoj Kumar, Ashok Mishra, Arvind Kumar, Ravi Kant, Thakur R.S.](#)
15 Jun 2010 . Pages : 28-31 . Article Id : BIA0000137
7. QSAR study for the prediction of IC50 and Log P for 5-N-Acetyl-Beta-DNeuraminic Acid structurally similar compounds using stepwise (multivariate) linear regression
Int J Chem Res 2.1 (2010):32-38
[Ponmary Pushpa Latha D.Ponmary Pushpa Latha D., Jeya Sundara Sharmila D.](#)
15 Jun 2010 . Pages : 32-38 . Article Id : BIA0000138
